

AYUSHMAN BOSU ROY

DEVOPS ENGINEER | AWS & GCP CLOUD INFRASTRUCTURE | KUBERNETES | TERRAFORM | CI/CD

Jaipur, Rajasthan, India • +91 7063444943 • ayushmanbosuroy@gmail.com • linkedin.com/in/ayushmanbosu-roy-24b3842b1
github.com/ayu-haker

PROFESSIONAL SUMMARY

B.Tech student specializing in DevOps, MLOps, and cloud-native engineering. Experienced in designing scalable cloud infrastructure, building CI/CD pipelines, and streamlining deployment workflows using Docker, Kubernetes, and Terraform across AWS and GCP. Combines hands-on DevSecOps practice with a strong foundation in cybersecurity and cloud automation to deliver secure, reliable, and automated systems. Actively contributes to open-source and cloud-native community initiatives.

TECHNICAL SKILLS & COMPETENCIES

Cloud Platforms: AWS, Google Cloud Platform (GCP), Microsoft Azure, Cloud-Native Architecture

Containers: Docker, Kubernetes, Containerization Tools

CI/CD & Automation: CI/CD Pipeline Design, Deployment Automation, Zero-Downtime Deployment, Terraform, Ansible, Jenkins

Programming & Scripting: Python, Go (exploring), Bash

Security & Code Quality: SIEM Tools, SonarQube

Languages: English, Hindi, Bengali (Professional Working Proficiency)

PROFESSIONAL EXPERIENCE

DevOps Architect | Pedestal Edtech — A Unit of Pedestal Techno World Pvt. Ltd.

March 2026 – Present

- Set up and managed cloud infrastructure using Docker and Kubernetes.
- Maintained Docker environments to make development faster and easier for the team.
- Improved back-end microservices for better speed and reliability.
- Fixed networking and deployment issues across staging environments.

DevOps & Cloud Engineer | Zetheta Algorithms Private Limited

August 2026 – September 2026

- Built and tested CI/CD pipelines for automatic app deployment.
- Used Docker to run and manage containerized applications, following DevOps best practices.
- Worked on reducing downtime during deployments and improved cloud delivery processes.
- Debugged deployment and infrastructure issues, and explored monitoring tools for cloud apps.

Founder | Vertex LAB

December 2025 – Present

- Built tech solutions combining AI and automation.
- Set a long-term vision focused on growth and innovation with tooling for moder DevOps.

Cyber Security Supervisor | Codec Technologies India

July 2025 – September 2025

- Ran vulnerability assessments and helped monitor network security to catch risks early.
- Supported incident response and helped document security procedures.
- Worked with senior analysts to test security tools; gained hands-on experience with SIEM and SonarQube.

Python Trainee | Zeetron Networks Pvt. Ltd. India

June 2025 – June 2025

- Learned core Python basics like loops, functions, data structures, and error handling.
- Built small scripts and beginner apps to practice problem-solving.
- Practiced automation with the cloud native infrastructure.

COMMUNITY INVOLVEMENT

Member | AWS Student Builder Group, GIT Jaipur

June 2026 – Present

Campus Ambassador | E-Cell, IIT Bombay

May 2026 – Present

- Represented E-Cell IIT Bombay by promoting entrepreneurial initiatives at the college level.
- Engaged students in startup culture through outreach activities, developing strong communication and leadership skills.

KEY PROJECTS

- Ride-Hailing Platform** — Production-grade microservices platform with Docker, Kubernetes, Jenkins, GitHub Actions CI/CD, and Prometheus-Grafana monitoring, focused on automated deployments and observability. (Docker, Kubernetes, Jenkins, GitHub Actions, Prometheus, Grafana)
- SH-PDOPS** — AI-driven self-healing DevOps pipeline for predictive failure recovery, with a live monitoring dashboard; forms the basis of an authored publication on cloud-native reliability and intelligent automation. (Python, Docker, CI/CD Playbooks, Instances)
- CommitOS** — Custom DevOps-ready Linux OS, shipped as both a Docker image and a bootable ISO, preloaded with 25+ tools spanning containers, orchestration, IaC, CI/CD, security, and cloud CLIs. (Docker, Kubernetes, Terraform, Ansible, Jenkins, ArgoCD)
- USB Dev Agent** — Portable AI-powered DevOps assistant running from a USB drive, with local LLMs, file monitoring, Git automation, and automated development workflows. (Python, Docker, Git, Local LLMs, Automation)

PUBLICATIONS

- "SH-PDOPS: AI-Driven Cloud Native Enterprise Reliability Framework for Predictive Analytics and Intelligent DevOps Automation"**
Sole author | [arXiv:2609.04210 \[cs.SE\]](https://arxiv.org/abs/2609.04210) | arxiv.org/abs/2609.04210
- Proposes SH-PDOPS, a self-healing, predictive DevOps framework for autonomous cloud-native deployment that combines Kubernetes, Docker-based packaging, Jenkins CI/CD automation, and AI-driven predictive monitoring into a single reliability engineering tool.
 - Focuses on earlier incident detection, disciplined AI-assisted rollback decisions, controlled auto-scaling, and workflow recommendations, while deliberately avoiding overclaiming full autonomy.
 - Evaluated using realistic operational metrics — Mean Time to Detect (MTTD), Mean Time to Recover (MTTR), system overhead, and automation coverage — rather than accuracy claims alone.

CERTIFICATIONS & QUALIFICATIONS

- Microsoft Certified: DevOps Engineer Expert** — Microsoft — Issued Oct 2026 · Expires Oct 2027 · Credential ID 46BDB4C448ADD39E
- Microsoft Certified: Azure Administrator Associate** — Microsoft — Issued Sep 2026 · Expires Sep 2027 · Credential ID 17F7567C3C7F4DD1
- AWS Certified Solutions Architect – Associate** — Amazon Web Services (AWS) — Issued Sep 2024 · Expires Sep 2026
- Google Cloud Computing Foundations: Cloud Computing Fundamentals** — Google — Issued Jun 2026 · Credential ID 24763665
- Introduction to Security Principles in Cloud Computing** — Google — Issued Jan 2026 · Credential ID 21707018
- Create a Secure Data Lake in Cloud Storage** — Google — Issued Jul 2024 · Credential ID 10175920
- Implement Cloud Load Balancing in Compute Engine** — Google — Issued Jul 2024 · Credential ID 10178865

EDUCATION

- B.Tech, Computer Engineering** | **Global Institute of Technology, Jaipur** August 2024 – July 2028
- Minor in Artificial Intelligence** | **Indian Institute of Technology, Ropar** August 2024 – May 2025
- Associate of Science — Computer & Information Sciences** | **Kendriya Vidyalaya**
